Inspection and Analysis of Economic Poisons

Economic poisons or pesticides cover a large number of materials and mixtures intended for destroying, controlling, or repelling pests such as insects, weeds and other noxious plants, predatory animals and birds, soil-infesting pests such as nematodes, algae, snails and bacteria. Other examples are disinfectants, antiseptics and fungicides for use other than on living man or other animals, defoliants, various repellants, fly paper and other adhesive products whose action goes beyond simple mechanics, moth proofers, wood preservatives other than common paints, mildew controls, and seed fumigants and disinfectants.

An adequate and reliable supply of these products is as indispensable as is fertilizer in the production of food and fiber crops. Weed killers and defoliants are important adjuncts. The preservation of many products in storage and the control of domestic and industrial pests which affect both the health and welfare of human beings and animals are likewise dependent on such materials.

While encouraging the development and distribution of reliable products to serve these needs, and with due regard for public health and welfare, it is the purpose of the economic poisons law (the North Carolina Insecticide, Fungicide and Rodenticide Act of 1947, G. S. Article 4A, Chapter 106) to protect the public from adulterated, misbranded, worthless and dangerous products, and legitimate manufacturers from unscrupulous competition. Among other requirements, the law authorizes inspections, analyses of official samples taken from products offered for sale within the state and publication of the results. With other pertinent information there is given in this issue of The Bulletin a list of registrants, a summary of registrations and detailed results of analyses of official samples taken throughout the state by inspectors of the department for the calendar year 1968. Included also are the North Carolina Aerial Crop-Dusting Law, regulations and registrants under that law, for 1968.

Before any brand of economic poison can be legally offered for sale in the state, it is required that it be registered with the Department of Agriculture. Application forms, furnished by the department, must be submitted in triplicate with copy of all labeling and claims. Applications must be accompanied by an inspection fee of ten dollars per brand and grade, payable to the North Carolina Department of Agriculture. All registrations expire December 31 of each year and are subject to re-registration with annual payment of inspection fees. Requirements are given in fuller detail in the "Brief of North Carolina Insecticide Law" on pages 7 and 8. Copies of the law and related regulations are available on request.

A statewide inspection service is maintained for the collection of official samples of economic poisons from farms, other users and dealers. Individual requests for inspections are followed up promptly.

Samples are sent to the department's laboratories for analysis and as soon as this work is completed, individual reports are forwarded to manufacturers, dealers and users. As a further means of reporting, an issue of The Bulletin covering a year's work as exemplified herewith, is published annually.

The economic poisons law gives control officials certain discretionary authority in dealing with borderline cases. The earnest cooperation of a great majority of manufacturers and dealers has been a valuable asset in the administration of the law.

Cooperative work by staff members of the North Carolina Experiment Station and Extension Service has been mutually beneficial and most helpful. Credit also is due members of the laboratory section for the highly satisfactory manner in which analytical work has been carried out: R. T. Teague, Assistant State Chemist; William Buffaloe, Pesticide Chemist; Billy Crawford, Jerry Dismukes, Dwight Lowie, Thomas Vick, James Watson, Chemists; Mrs. Betty Griffin, Secretary; James R. Stevens, Chief Feed, Fertilizer & Pesticide Inspector; Henry O. Austin, A. G. Campbell, Jr., H. C. McPhail, Thomas M. Parker, Carl Williams, Inspectors; Sam Hinton, Laboratory Helper.

Brief of North Carolina Insecticide Law

Commissioner of Agriculture, Raleigh, North Carolina.

Administrative
Officer

1. The name and address of the guarantor.
2. The brand name or trademark.
3. The net weight or measure.
4. A guaranteed analysis statement showing:
 - a. The name and percentage of each active ingredient.
 - b. The total percentage of inert ingredients.
5. Instruction for use, adequate for protection of the public.
6. A warning or caution statement adequate to prevent injury.
7. For economic poisons highly toxic to man:
 - a. The skull and crossbones.
 - b. The word "Poison" in red, on distinctly contrasting background.
 - c. An antidote for the poison.
8. When arsenic is present—the percentage of the total and of the water-soluble arsenic separately and as elemental (metallic) arsenic.

Information
Required to
Appear on
Package
Labels

Other General Requirements

1. Strength and quality must not fall below that professed or claimed.
2. No false or misleading statements, design or other representation is permissible.
3. Imitations are not permitted.
4. Labeling may not refer to registration.
5. Labeling shall be legible and understandable.
6. Claims or directions for use may not deviate in substance, or composition vary, from representations made on registering.
7. Economic poisons must be sold in the registrant's or manufacturer's original package. If repackaged for sale, it loses its original identity and qualifies as a new product. As such it is subject to registra-

General
Requirements

tion and all other provisions of the law. Responsibility rests on the repackaging agent.

8. Economic poisons in powdered form of white or light color require distinct further coloring for safety.

Each brand and grade of economic poisons must be registered prior to sale (application forms are furnished by the department), subject to renewal annually, January 1st. Duplication of registration by secondary sellers is not required.

Registration

Application must be accompanied by full information (see package labeling above), including specimen of labeling, all claims, and, if called for, certain additional data when necessary in qualifying the product.

An annual inspection tax of \$10.00 for each brand and each grade is required.

Inspection
Tax

Inspection tax must accompany application for registration, payable to the North Carolina Department of Agriculture.

Method of
Paying

Registration is subject to refusal or cancellation for cause and upon hearing.

Refusal or
Cancellation of
Registration

Goods not measuring up to requirements are subject to Stop-Sale Orders.

Stop-Sale
Orders

Short weight, in addition to above, is subject to penalty.

Short Weight

Exempt from Penalties of Law Are:

1. Carriers engaged in legal transporting.
2. Public officials while performing official duties.
3. Manufacturers and shippers of products properly identified for experimental use only.
4. Persons shown to be proceeding in good faith on guarantees and representations given by others. The original guarantor then is liable.

Exemptions

NOTE: Copies of the economic poisons law may be obtained upon request to the Inspection Division, North Carolina Department of Agriculture, Raleigh, North Carolina.

N. C. Aerial Crop Dusting Law and Regulations

The North Carolina Aerial Crop-Dusting Law, enacted by the General Assembly of 1953, has passed through its fourteenth year of enforcement. Its purposes are to protect public health and welfare, to bring improved order in the aerial dusting industry and to eliminate practices which were not in the best interest of the industry or those whom it serves. Marked progress has been made, but there is much yet to be accomplished. The North Carolina Aerial Applicators Association and other members of the industry sponsored the law and cooperate in its enforcement.

The law and the regulations promulgated thereunder, in summary, require the registration and licensing of those who engage in the custom application of pesticides by aircraft in this state. Qualifications for license require adequate knowledge of the proper use and application of pesticides, the dangers involved and precautions necessary in their application.

Annual renewal of all licenses is required. The validity of any license is further restricted to the period of time that coverage by liability bond or insurance for damage by aircraft is in force. The minimum liability coverage is \$5,000.00 for property damage, \$10,000.00 for personal injury, and \$20,000.00 for any one accident.

Licenses are of two types: Contractors—who contract for the airplane application of pesticides; and Applicators or aviators—those who do the application work. An individual, upon qualification, may procure both licenses. Applicator's licenses, among other things, are contingent on Federal Aviation Agricultural Operator's Certificate.

Licenses may be suspended or revoked if licensees are no longer qualified, for fraudulent, faulty, careless or negligent operations, or for other failure to comply with the requirements of the law. They are automatically nullified upon cancellation or expiration of liability coverage.

The law and regulations are given in the succeeding pages.

N. C. AERIAL CROP DUSTING LAW CHAPTER 106, N. C. GENERAL STATUTES

Article 4B, Aircraft Application of Pesticides

§106-65.13. Definitions. For the purposes of this article.

(1) The term "aircraft" means any contrivance now known or hereafter invented, used or designed for navigation of, or flight in, the air.

(2) The term "Board of Agriculture" means the North Carolina Board of Agriculture.

(3) The term "Commissioner" means the Commissioner of Agriculture.

(4) The term "custom application of pesticides" means any application of pesticides by aircraft.

(5) The term "fungi" means all non-chlorophyll-bearing thallophytes (that is, all non-chlorophyll-bearing plants of a lower order than mosses and liverworts), as, for example, but not limited to, rusts, smuts, mildews, molds, yeasts, and bacteria, except those on or in living man or other animals.

(6) The term "fungicide" means any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating fungi or plant disease.

(7) The term "herbicide" means any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any weed.

(8) The term "insect" means any of the numerous small invertebrate animals generally having the body more or less obviously segmented, for the most part belonging to the class Insecta, comprising six-legged, usually winged forms, as, for example but not limited to, beetles, bugs, bees, and flies, and to other allied classes of arthropods whose members are wingless and usually have more than six legs, as, for example, but not limited to, spiders, mites, ticks, centipedes, and wood lice.

(9) The term "insecticide" means any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any insects which may be present in any environment whatsoever.

(10) The term "person" means any individual, firm, partnership, association, corporation, company, joint stock association, or body politic, or any organized group of persons whether incorporated or not; and includes any trustee, receiver, assignee, or other representative thereof.

(11) The term "pesticide" or "economic poison" means any substance or mixture of substances intended for preventing, destroying, repelling, or mitigating any insects, rodents, fungi, bacteria, weeds, or other forms of plant or animal life or viruses, except viruses on or in living man or other animals, which the Commissioner shall declare to be a pest.

(12) The term "weed" means any plant or plant part which grows where not wanted. (1953, c. 1333.)

§106-65.14. Licenses.

(a) It shall be unlawful for any person to engage in custom application of pesticides within the State at any time without a license issued by the Commissioner. Application for a license shall be made to the Commissioner and each application shall contain information regarding the applicant's qualifications and proposed operations and such other relevant matters as may be required pursuant to regulations promulgated by the Board of Agriculture.

(b) The Commissioner may require the applicant to show, upon examination, that he possesses adequate knowledge concerning the proper use and application of pesticides, and the dangers involved and precautions to be taken in connection with their application. If the applicant is other than an individual, the applicant shall designate an officer, member, or technician of the organization to take the examination, such designee to be subjected to the approval of the Commissioner. If the extent of the applicant's operations warrant it, the Commissioner may require more than one officer, member or technician to take the examination.

(c) If the Commissioner finds the applicant qualified, the Commissioner shall issue a license, which shall authorize the licensee to perform custom application of pesticides within the State. The license may restrict the applicant to the use of a certain type or types of materials if the Commissioner finds that the applicant is qualified to use only such type or types. If a license is not issued as applied for, the Commissioner shall inform the applicant in writing of the reasons therefor. All licenses issued under this article shall expire on December 31 of each year and may be renewed upon the filing of a new application therefor.

(d) The Commissioner may suspend, pending inquiry, for not longer than ten days after opportunity for a hearing, may revoke, or modify the provisions of any license issued under this section, if he finds as a fact that the licensee is no longer qualified or has engaged in fraudulent business practices in the custom application of pesticides, or has made any custom application in a faulty, careless, or negligent manner, or has violated any of the provisions of this article or regulations made thereunder.

(e) The Commissioner may require, under such rules and regulations as may be promulgated under this article, from each applicant a liability bond against damage to person or property by aircraft and a reasonable performance bond with sufficient surety satisfactory to the Commissioner, which performance bond is to secure the performance of contractual obligations of the licensee with respect to custom application of pesticides. Any person injured by the breach of any such obligation or any person damaged by such aircraft shall be entitled to sue on the bond in his own name in any court of competent jurisdiction to recover the damages he may have sustained.

(f) Any person aggrieved by any action of the Commissioner may within ten days after notice thereof request a review of said action by the Board of Agriculture. If no request for review is so made, the decision of the Commissioner shall be final. If a review is so requested, the Board of Agriculture shall promptly review the action of the Commissioner and either affirm or over-rule his action. If the Board of Agriculture affirms the Commissioner, it shall find the facts of the case and the aggrieved person may within thirty days after notice thereof appeal to the Superior Court of the county in which such person resides or to the Superior Court of Wake County and the matter may be heard in or out of chambers. Notice of the appeal shall be served on the Commissioner and within ten

days thereafter the Commissioner shall certify and file in the court to which the appeal is taken a transcript of any record pertaining thereto, including a transcript of evidence received. The court shall have jurisdiction to affirm, set aside or modify the action of the Board of Agriculture, **provided**, that the findings of fact as made by said Board, if supported by evidence, shall be conclusive.

Any license which has been suspended or revoked by the Commissioner or Board of Agriculture shall remain suspended or revoked until the laws, and regulations of the Board of Agriculture, have been complied with or until the decision or action of said Commissioner or Board have been set aside by court action. (1953, c. 1933.)

§106-65.15. Regulations, materials and methods of application.—The Board of Agriculture, after public hearing, may adopt regulations prohibiting the use of materials or methods in custom application of pesticides to the extent necessary to protect health or property and may make such other regulations as it may deem necessary to carry out the provisions of this article. **Provided, however**, such regulations shall not be inconsistent with the regulations issued by this State or by the Federal Government respecting safety in air navigation or operation of aircraft and before issuing any regulations directly related to any matter within the jurisdiction of any other official of this state, the Commissioner shall consult with that official with reference thereto. (1953, c. 1933.)

§106-65.16. Reports.—The Board of Agriculture may by regulation require any licensee to maintain records and furnish reports giving information with respect to particular applications of pesticides and such other relevant information as the Board of Agriculture may deem necessary. (1953, c. 1933.)

§106-65.17. Information.—The Commissioner may, in cooperation with the North Carolina Agricultural Experimental Station, publish information regarding injury which may result from improper application or handling of pesticides and the methods and precautions designed to prevent such injury. (1953, c. 1933.)

§106-65.18. Penalties.—Any person violating the provisions of this article or the regulations issued hereunder shall be guilty of a misdemeanor and upon conviction shall be fined or imprisoned or both in the discretion of the court. (1953, c. 1933.)

§106-65.19. Enforcement.—For the purpose of carrying out the provisions of this article the Commissioner may enter upon any public or private premises at reasonable times in order to have access for the purpose of inspecting any aircraft or materials subject to this article. (1953, c. 1933.)

§106-65.20. Delegation of Duties.—The function vested in the Commissioner by this article may be delegated by him to such employees of the Department of Agriculture or other qualified persons as the Commissioner may from time to time designate for such purposes. (1953, c. 1333.)

§106-65.21. Cooperation.—The Commissioner may cooperate with any other agency of this State or its sub-divisions or with any agency of any other State or of the Federal Government for the purpose of carrying out the provisions of this article and of securing uniformity of regulations. (1953, c. 1333.)

RULES, REGULATIONS, DEFINITIONS AND STANDARDS

CHAPTER XII

Application of Pesticides By Aircraft

ARTICLE 1. APPLICATION OF PESTICIDES BY AIRCRAFT

§12-1. Application for license.—Application for a license to engage in the custom application of pesticides by aircraft shall be made to the Commissioner of Agriculture upon forms prescribed for that purpose and furnished by the Department of Agriculture.

§12-2. Classes of licenses.—There shall be two classes of licenses which shall authorize the holders thereof to engage in the custom application of pesticides to the extent authorized by the license and the rules and regulations of the State Board of Agriculture. The classes of licenses shall be as follows:

(a) **Contractor's License.** A contractor's license shall authorize the holder thereof to contract for the aerial application of pesticides.

(b) **Airplane Applicator's License.** An airplane applicator's license shall entitle the holder thereof to apply pesticides as contracted for by the holder of an operator's license.

§12-3. Examination for license.—Before any license is issued, the Commissioner may require the applicant to undergo such examination and to submit such other information as the Commissioner in his discretion may deem necessary for a proper determination of the applicant's qualifications.

§12-4. Modification, revocation or suspension of license.—All licenses are subject to modification as to terms and privileges and may be revoked or suspended by the Commissioner of Agriculture according to the provisions of G.S. 106-65.14. Licenses may be issued for periods of less than one year but all licenses shall expire on December 31 of each year and may be renewed upon the filing of a new application therefor.

§12-5. Display of license.—All holders of contractor's or airplane applicator's licenses shall keep their licenses conspicuously posted at their place of business or about their person when engaged in the application of pesticides by aircraft and shall show their license upon request. Upon satisfactory proof of the loss or destruction of a license, a duplicate thereof may be issued to the qualified holder.

§12-6. Liability bond.—No airplane applicator's license shall be issued unless the applicant submits to the Commissioner of Agriculture along with the application for license a liability insurance policy covering said applicant and the person or persons for whom the custom application of pesticides is to be made against liability for damage to all persons or property caused by said aircraft. Said liability insurance policy shall cover at least \$5,000.00 for property damage, \$10,000.00 for personal injury, and \$20,000.00 for any one accident; and shall be required to be in force for the duration of the applicant's license: Provided, however, it is not the intent of this regulation for any liability insurance policy to cover damages resulting from the application of pesticides, but only for damages caused by aircraft.

§12-7. Report and Records.—Each contractor shall maintain daily reports and records on forms satisfactory to the Commissioner and all such reports and records shall be kept open and available for inspection by any authorized representative of the Department of Agriculture. Each contractor shall also submit to the Commissioner of Agriculture on or before December 31 of each year an annual report on forms furnished by the Commissioner, covering in detail the contractor's activities for the period covered by the report.

§12.8. Responsibility of contractors and applicators.—All contractors and applicators shall be responsible for the proper use and maintenance of equipment and for the proper use and application of pesticides; and shall at all times use due care for the protection of surrounding property, crops, fish ponds, plants and livestock. Any contractor or applicator who violates or disregards the provisions of this regulation or who makes any custom application in faulty, careless, or negligent manner shall have his license suspended or revoked according to the provisions of G.S. 106-65.14.

(Adopted: June 22, 1953)

(Authority: G.S. 106-65.15)

Licensees Under N. C. Aerial Crop-Dusting Law for 1968

This list gives the names of firms or individuals who registered with the North Carolina Department of Agriculture and were issued licenses as Contractors, Applicators, or both, for the year 1968. Each type of license is indicated in connection with the respective name of individual or firm as given in the list.

All licenses expire December 31, 1968, or earlier according to expiration of insurance coverage and are subject to renewal for operations in 1969.

Common and Chemical Names of Economic Poisons

ALANAP:

N-1-Naphthylphathalamic acid

ALDRIN:

Hexachlorohexahydro-endo, exo-dimethanonaphthalene 95%
and related compounds 5%

ALLETHRIN:

Allyl homolog of cinerin I

AMIBEN:

3-Amino-2,5-dichlorobenzoic acid

AMITROLE:

3-Amino-1,2,4-triazole

ANTU:

Alpha-Naphthylthiourea

ARAMITE:

2-(p-tert-Butylphenoxy)-1-methylethyl 2-chloroethyl sulfite

ARSENIC TRIOXIDE:

Arsenious oxide

ATRAZINE:

2-Chloro-4-ethylamine-6-isopropylamino-s triazine

AZODRIN:

Dimethyl phosphate of 3-hydroxy-N-methyl-cis-crotonimide

BALAN; BENEFIN:

N-Butyl-N-ethyl-a,a,a-trifluoro-2,6-dinitro-p-toluidine benefin

BAYGON:

O-Isopropoxyphenyl methylcarbamate

BAYTEX; BAYER 29493:

O,O-Dimethyl O- [4-(methylthio)-m-toyl] phosphorothioate

BHC:

Benzene hexachloride

BIDRIN:

Dimethyl phosphate of 3-hydroxy-N,N-dimethyl-cis-crotonamide

BIOPAL CVL 10:

Nonylphenoxy polyethyleneoxy ethanol—iodine complex

BOMYL:

Dimethyl 3-hydroxyglutaconate dimethyl phosphate

BORAX:

Sodium tetraborate

BORIC ACID:

Boracic acid

BUTYRAC:

2,4-Dichlorophenoxy butyric acid, sodium salt

CACODYLIC ACID:

Dimethylarsinic acid

CALCIUM ACID METHYL ARSONATE:

Methanearsonic acid, calcium hydrogen salt

CALCIUM ARSENATE:

Tricalcium arsenate

CALCIUM CYANAMIDE:

Calcium carbimide

CALCIUM CYANIDE:

Calcium cyanide

CALCIUM POLYSULFIDE:

Sulfurated lime

CAPTAN:

N-trichloromethylthio-4-cyclohexene-1,2-dicarboximide

CHLORANIL:

Tetrachloro-p-benzoquinone

CHLORDANE (TECHNICAL):

60% Octachloro-4,7-methanotetrahydroindane and 40% related compounds

CHLOROBENZILATE:

Ethyl 4,4'-dichlorobenzilate

CHLOROPROPYLATE:

Isopropyl 4,4-dichlorobenzilate

CHLOROTHION:

O,O-Diethyl O-(3-chloro-4-nitrophenyl) phosphorothioate

CIODRIN:

Dimethyl phosphate of alpha-methylbenzyl 3-hydroxy-cis-crotonate

CIPC:

Isopropyl N-(3-chlorophenyl) carbamate

COPPER ARSENATE (BASIC):

Cupric arsenate (basic)

COPPER NAPHTHENATE:

Cupric Cyclopentane carboxylate

COPPER SULFATE:

Cupric sulfate

CO-RAL; COUMAPHOS:

O,O-diethyl 0-3-chloro-4-methyl-2-oxo-2H-1-benzopyran-7-yl phosphorothioate

COTORAN:

1,1-Dimethyl-3-(a,a,a-trifluoro-m-tolyl) urea

2,4-D:

2,4-Dichlorophenoxyacetic acid

DACTHAL:

Dimethyl tetrachloroterephthalate

DALAPON:

2,2-Dichloropropionic acid

DDD; TDE; RHOTHANE

Dichloro diphenyl dichloroethane

D-D SOIL FUMIGANT:

A mixture of 1,3-dichloropropene, 1,2-dichloropropane and related C₃ compounds

DDT:

Dichloro diphenyl trichloroethane

DDVP:

2,2-Dichlorovinyl dimethyl phosphate

DELNAV; DIOXATHION:

2,3-p-Dioxanedithiol S,S-bis (O,O-diethyl phosphorodithioate)

DELPHENE; DEET:

N,N-diethyl-m-toluamide

DEMETON:

A mixture of O,O-diethyl 0-2-(ethylthio) ethyl phosphorothioate and O,O-diethyl S-2-(ethylthio) ethyl phosphorothioate

DIAZINON:

O,O-diethyl-0(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate

DIBROM; NALED:

1,2-Dibromo-2,2-dichloroethyl dimethyl phosphate

DICAMBA:

3,6-dichloro-o-anisic acid

DICAPTHON:

0,2-chloro-4-nitrophenyl 0,0-dimethyl phosphorothioate

DICHOLOBENIL:

2,6-Dichlorobenzonitrile

DICHLONE:

2,3-Dichloro-1,4-naphthoquinone

DICHLOROPHENE:

2,2'-Methylenebis (4-Chlorophenol)

DIELDRIN:

Hexachloroepoxyoctahydro-endo, exo-dimethanonaphthalene
85% and related compounds 15%

DIMETHOATE:

0,0-Dimethyl S-(N-methylcarbamoylmethyl) phosphorodithioate

DIMETILAN; DIMETILANE:

2-Dimethylcarbamyl-3-methyl-5-pyrazolyl dimethylcarbamate

DIMITE:

4,4-Dichloro-alpha-methylbenzhydrol

DINITROBUTYLPHENOL:

4,6-Dinitro-o-sec-butylphenol

DINITROCRESOL; DNOC:

4,6-Dinitro-o-cresol

DIPHACINONE:

2-Diphenylacetyl-1,3-indandione

DIPHENAMID:

N,N-Dimethyl-2,2-diphenylacetamide

DIPTEREX; TRICHLOROFON:

Dimethyl (2,2,2-trichloro-1-hydroxyethyl) phosphonate

DIQUAT:

6,7-Dihydrodipyrido [1,2-a:2',1'-c] pyrazidiinium dibromide

DISODIUM METHYL ARSONATE:

Disodium salt of methanearsonic acid

DISYSTON; DISULFOTON:

0,0-Diethyl S- [2-(ethylthio) ethyl] phosphorodithioate

DIURON:

3-(3,4-Dichlorophenyl)-1,1-dimethylurea

ENDRIN:

Hexachloroepoxyoctahydro-endo,endo-dimethanonaphthalene

EPN:

0-Ethyl 0-p-nitrophenyl phenylphosphonothioate

EPTAM:

S-Ethyl dipropylthiocarbamate

ERBON:

2-(2,4,5-Trichlorophenoxy) ethyl-2,2-dichloropropionate

ETHION:

0,0,0',0'-Tetraethyl S-S'-methylene bisphosphorodithioate

ETHYLENE DIBROMIDE:

1,2-Dibromoethane

ETHYLENE DICHLORIDE:

1,2-Dichloroethane

ETHYL GUTHION:

0,0-Diethyl S- [4-oxo-1,2,3-benzotriazin-3(4H)-ylmethyl] phosphorodithioate

ETHYL HEXANEDIOL:

2-Ethyl-1,3-hexanediol

FENURON:

3-Phenyl-1,1-dimethylurea

FERBAM:

Ferric dimethyldithiocarbamate

FOLEX:

Tributyl phosphorotrithioate

FUMARIN; COUMAFARYL:

3-(alpha-Acetonfylfurfuryl)-4-hydroxycoumarin

GLYODIN:

2-Heptadecylimidazoline acetate

GUTHION:

0,0-Dimethyl S- [4-oxo-1,2,3-benzotriazin-3(4H)-ylmethyl] phosphorodithioate

HEPTACHLOR:

Heptachlorotetrahydro-4,7-methanoindene

HEXACHLOROPHENE:

2,2'-Methylene bis (3,4,6-trichlorophenol)

HYDROGEN CHLORIDE:

Hydrochloric acid

ISOPROPYL ALCOHOL:

Dimethylcarbinol

KARATHANE; DINOCAP:

2-(1-Methylheptyl)-4,6-dinitrophenyl crotonate

KELTHANE; DICOFOL:

1,1-Bis (p-chlorophenyl)-2,2,2-trichloroethanol

KEPONE:

Decachlorooctahydro-1,3,4-metheno-2H-cyclobuta (cd)
pentalen-2-one

KORLAN; RONNEL:

0,0-Dimethyl 0-(2,4,5-trichlorophenyl) phosphorothioate

LEAD ARSENATE:

Diplumbic hydrogen arsenate

LETHANE A70:

Beta, beta'-Dithiocyano diethyl ether

LETHANE 60:

Beta-thiocyanoethyl esters of mixed fatty acids containing 10 to 18 carbon atoms

LETHANE 384:

Beta-butoxy beta'-thiocyano diethyl ether

LINDANE:

Gamma isomer of benzenehexachloride

LINURON:

3-(3,4-Dichlorophenyl)-1-methoxy-1-methylurea

MALATHION:

0,0-Dimethyl dithiophosphate of diethyl mercaptosuccinate

MANEB:

Manganese ethylenebisdithiocarbamate

MECPROP:

2-(2-Methyl-4-chlorophenoxy) propionic acid

METALDEHYDE:

Metacetaldehyde

METHOXYCHLOR (TECHNICAL):

2,2-Bis (p-methoxyphenyl)-1,1,1-trichloroethane 88% and related compounds 12%

METHYLMERCURY 2,3-DEHYDROXYPROPYLMERCAPTIDE:

Methylmercury 2,3-dehydroxypropylmercaptide

METHYL PARATHION:

0,0-Dimethyl 0-p-nitrophenyl phosphorothioate

METHYL TRITHION:

S-[[[p-Chlorophenyl]thio] methyl] o,o-dimethyl phosphorodithioate

MH-30; MALEIC HYDRAZIDE:

1,2-Dihydro-3,6-pyridazinone

MOCAP:

0-Ethyl-S,S-dipropyl phosphorodithioate

MONOSODIUM ACID METHANEARSONATE:

Methaneearsonic acid, monosodium salt

MONURON:

3-(p-Chlorophenyl)-1,1-dimethylurea

MYLONE:

Tetrahydro-3,5-dimethyl-2H-1,3,5-thiadiazine-2-thione

NEBURON:

1-Butyl-3-(3,4-dichlorophenyl)-1,1-methylurea

NEMAGON:

1,2-Dibromo-3-chloropropane

NICOTINE:

L-3-(1-Methyl-2-pyrolidyl) pyridine

N-OCTYL BICYCLOHEPTENE DICARBOXIMIDE:

N-2-Ethylhexylimide of endomethylenetetra-hydrophthalic acid

NOREA:

3-(Hexahydro-4,7-methanoindan-5-yl)-1,1-dimethylurea

ORGANIC AMMONIUM CHLORIDES:

A mixture of alkyl benzylammonium chlorides

OVEX; OVOTRAN:

p-Chlorophenyl p-chlorobenzenesulfonate

PARADICHLOROBENZENE:

1,4-Dichlorobenzene

PARAFORMALDEHYDE:

Trioxymethylene

PARATHION:

0,0-Diethyl 0-paranitrophenyl thiophosphate

PARIS GREEN:

Copper acetoarsenite

PENAR:

Dimethyldodecylamine acetate

PENPHENE:

Tetrachlorothiophene

PERTHANE

Diethyl diphenyl dichloroethane and related compounds

PHALTAN; FOLPET:

N-(Trichloromethylthio) phthalimide

PHENOL:

Carbolic acid

PHOSDRIN:

Alpha isomer of 2-carbomethoxy-1-methylvinyl dimethyl phosphate

PHOSPHAMIDON:

2-Chloro-2-diethylcarbomoyl-1-methylvinyl dimethyl phosphate

PHOSPHORIC ACID:

Ortho-phosphoric acid

PIPERONYL BUTOXIDE (TECHNICAL):

Butylcarbityl-6-(propyl piperonyl) ether 80% and related compounds 20%

PIPERONYL CYCLONENE:

A mixture of 3-alkyl-6-carbethoxy-5-(3,4-methylene dioxiphenyl)-2-cyclohexene-1-one and 3-alkyl-5-(3,4-methylene dioxiphenyl)-2-cyclohexene-1-one

PIVAL:

2-Pivaloyl-1,3-indandione

PIVALYN:

Sodium salt of 2-pivaloyl-1,3-indandione

POLYRAM:

A mixture of zineb and zinc dithiobis(thiocarbonyl) iminoethylene bisdithiocarbamate

POTASSIUM CYANATE:

Potassium cyanate

PRAMEX:

N,N-di-n-butyl-p-chlorobenzene sulfonamide

PROMETONE:

2-Methoxy-4,6-bis(isopropylamino)-S-triazine

PYRETHRUM:

Chrysanthemum cineroreae-folium

ROTENONE:

Derrin; tubatoxin

SABADILLA:

Schoenocaulon officinale alkaloid

SESONE:

Sodium 2-(2,4-dichlorophenoxy) ethyl sulfate

SEVIN; CARBARYL:

1-Naphthyl N-methylcarbamate

SHOXIN; NORBROMIDE:

A mixture of stereoisomers of 5-alpha-hydroxy-alpha-2-pyridylbenzyl)-7-(alpha-2-pyridylbenzylidene)-5-norbornene-2,3-dicarboximide

SILVEX:

2-(2,4,5-Trichlorophenoxy) propionic acid

SIMAZINE:

2-Chloro-4,6-bis(ethylamino)-s-triazine

SODIUM ARSENATE:

Disodium arsenate

SODIUM ARSENITE:

Sodium meta-arsenite

SODIUM CHLORATE:

Sodium chlorate

SODIUM FLUORIDE:

Sodium fluoride

SODIUM FLUOSILICATE:

Sodium silicofluoride

SODIUM HYDROXIDE:

Sodium hydrate

SODIUM SALT OF DINITROBUTYLPHENOL

2,4-Dinitro-6-sec-butyphenol, sodium salt of

SODIUM SULFATE:

Sodium sulfate

STROBANE:

A mixture of heptachlorocamphene, heptachloropinene and other chlorinated terpenes

STRYCHNINE:

Strychnos nux-vomica alkaloid

SULFOTEPP:

0,0,0,0-Tetraethyl dithiopyrophosphate

SULFUR:

Sulfur

2,4,5-T:

2,4,5-Trichlorophenoxyacetic acid

TEDION; TETRADIFON:

4-Chlorophenyl 2,4,5-trichlorophenyl sulphone

TENORAN; CHLOROXYURON:

3- [p-(p-Chlorophenoxy) phenyl] -1,1-dimethylurea

TEPP:

Tetraethyl pyrophosphate

TERRACLOR:

Pentachloronitrobenzene

THALLIUM SULFATE:

Thallous sulfate

THANITE:

Isobornyl thiocynoacetate and related compounds

2,2' THIOBIS (4,6-DICHLOROPHENOL):

Bis(2-hydroxy-3,5-chlorophenyl) sulfide

THIODAN; ENDOSULFAN:

Hexachlorohexahydromethano-2,4,3-benzodioxathiepin oxide

THIRAM:

Tetramethylthiuram disulfide

TILLAM; PEBULATE:

S-Propy butylethylthiocarbamate

TOXAPHENE:

Chlorinated camphene

TRIFLURALIN:

α,α,α -Trifluoro-2,6-dinitro-N,N-dipropyl-p-toluidine

TRITHION; CARBOPHENOTHION:

S- [(p-Chlorophenylthio) methyl] 0,0-diethyl phosphorodithioate

VAPAM; METHAM SODIUM:

Sodium methyldithiocarbamate

VAPONA; DICHLOROVOS:

Not less than 93% dimethyl dichlorovinyl phosphate and not more than 7% related compounds

VERNAM; VERNOLATE:

S-Propyl dipropylthiocarbamate

WARFARIN:

3-(α -Acetonylbenzyl)-4-hydroxycoumarin

ZAC:

Ziram cyclohexylamine complex

ZECTRAN:

4-(Dimethylamino)-3,5-xylyl methylcarbamate

ZINC NAPHTHENATE:

Zinc cyclopentane carboxylate

ZINC PHOSPHIDE:

Zinc phosphide

ZINEB:

Zinc ethylenebisdithiocarbamate

ZIRAM:

Zinc dimethyldithiocarbamate

Number of items stopped from sale because of failure to register	161

Decisions

The results of analyses of economic poisons are tabulated in the following pages. For the reader's ready interpretation of the analyses, designations used are explained in the following paragraphs.

"Passed" signifies that the labeling and composition of the product satisfactorily complied with guarantees and requirements. Small deviations in analyses are normal.

"Deficient" usually signifies that one or more ingredients fell significantly below guarantee, although it may also indicate an excess of a harmful ingredient, as in case of water-soluble arsenic. Such products, in most instances, qualify as unsatisfactory and are subject to "Stop Sale Order" and removal from the market for reprocessing or relabeling. In borderline cases, where exact values are indeterminate, the product is qualified as deficient but the manufacturer cautioned. In some instances where such goods have been used before analysis could be completed, the manufacturer has made settlement satisfactory to the user.

"Adulterated" indicates that significant quantities of undeclared active ingredients were present. Since proof of adulteration disqualifies a product, analysis may be discontinued at that point thus saving further expenditure of time and work. Such lots, batches or brands are stopped from sale and other appropriate action taken.

"Misbranded" signifies that labeling failed to conform to requirements. Omission of some item or statement is a more common flaw. Among these may be proper ingredient listing, skull and crossbones, "Poison" in red and an antidote where these are required; net contents by weight or volume; class of, and unsulfonated residues of petroleum oils; and percentages of alkaloids instead of crude product such as a sabadilla seed.

In some instances of misbranding the defect appeared to be inadvertent or of a minor nature. It appeared permissible and fair to allow the manufacturer time for correction. In others, removal from sale was necessary.

"Not Registered" signifies that the product was not registered at the time it was sampled. Prompt registration is required or the product is removed from sales.

As has been the practice in past work, analyses were made largely for those ingredients which were considered of major importance, as, for example, gamma isomer of benzene hexachloride, whereas other isomers were not checked. For sake of brevity, items not generally checked are not listed in the tabulations. This should not be taken to indicate that manufacturers did not include them on labels. This procedure has been followed because it enables a broader coverage of all products offered for sale.

Official Analyses of Economic Poisons, 1968

Manufacturers and Brands	Guaranteed Per Cent	Found Per Cent	Decisions
ALANAP—4-6-DINITRO- O-SEC-BUTYLPHENOL			
Uniroyal Chemical Division of Uniroyal, Inc.			
Dyanap
